Talisay City Puroks and Sitios by Barangay

Your BFP fire log sorted by barangay, then extended by map and web search. 6 November 2026.

22	128	389	188
barangays, all covered	puroks, sitios and zones in your sheet	more found by searching	of those are new to the Geoalert list

The short version

- **Are these all the barangays?** Yes. Talisay has exactly 22. The city directory and the PSA list agree, and no new barangay was found. Your sheet covers 21; the one it misses is **Manipis**, which has no fire record.
- **Are these all the puroks and sitios?** No. This is the fullest list so far, but 5 of the 19 barangays with a city count are still short of it, and no purok count exists for most barangays (Part 3).
- **Duplicates:** 5 true duplicates were merged. 11 more names look like one place on a boundary and stay under both barangays. 47 other names simply repeat across barangays, such as Purok Mangga (Part 4).
- **Subdivisions:** 237 found and placed by barangay, 155 of them from the BIR schedule. Sizes come from map outlines, and locations are estimates (Part 5).
- **From your sheet:** 219 fire records. 158 name a place, giving 128 puroks, sitios and zones plus 22 subdivisions. The other 61 give only a street, a landmark or the barangay (Part 8).

How to read the ratings

Rating	Meaning
Official	A city, barangay, BIR or DPWH document names it in this barangay.
Confirmed	Two or more separate sources agree.
Likely	One source places it in this barangay: a map pin, a news report, or an outage notice.
Check	Weak or conflicting evidence. Verify before using it.

NEW means the name was not in the Geoalert list before this search.

How the names were checked

Every map pin was tested against the PSA barangay outlines. That caught names that looked right but belonged elsewhere: Bulacao in Cebu City, Poblacion in Liloan, Linao-Lipata in Minglanilla, and Talisay in Negros Occidental (Part 9). The outlines are approximate, so a pin near a boundary can fall in the neighbouring barangay. Those cases are rated Check.

Limits

- City sitio counts date from 2004 to 2010, so some names and counts will have changed.
- Google Maps was read through 436 searches, not the whole map. Its pins are added by users and businesses, so many small sitios are not on it.
- Outage notices name only the areas an outage touched, and many notices cover several barangays at once. Names that could not be narrowed to one barangay are in Part 6.

Part 1. The 22 barangays

Official PSA spellings, with the local spelling used in your sheet where it differs. The city count is what the city itself reported; San Isidro, Dumlog and Lagtang gave none.

Part 3. Is this everything?

Barangays: yes. Talisay has exactly 22. The city directory, the PSA list and the BIR schedule all show the same 22, and no record of a new barangay was found.

Puroks and sitios: no. 14 of the 19 barangays with a city count now reach it, and 5 are still short. Reaching a count does not prove a list is complete: the counts are old, and some names here may be parts of one sitio. Most barangays have no purok count at all, so only the Barangay Halls can close this.

Barangay	City count	Sitios and zones listed	Puroks listed	Result
Biasong	5 sitios (2004)	8	15	Reached
Bulacao	17 sitios (2004)	12	7	5 short
Cadulawan	5 sitios (2010)	12	11	Reached
Camp IV	9 sitios (2010)	11	11	Reached
Cansojong	26 sitios (2010)	23	1	3 short
Dumlog	Not stated	22	16	No city count
Jaclupan	9 sitios (2010)	12	11	Reached
Lagtang	Not stated	28	15	No city count
Lawaan I	14 sitios (2004)	4	3	10 short
Lawaan II	14 sitios (2010)	17	6	Reached
Lawaan III	12 sitios (2004)	10	13	2 short
Linao	8 sitios (2004)	14	6	Reached
Maghaway	6 sitios (2010)	12	8	Reached
Manipis	6 sitios (2004)	9	4	Reached
Mohon	6 sitios (2004)	16	8	Reached
Poblacion	11 sitios + 3 puroks (2004)	12	8	Reached
Pooc	12 sitios (2010)	13	8	Reached
San Isidro	Not stated	15	9	No city count
San Roque	5 sitios (2004)	10	38	Reached
Tabunoc	22 sitios (2010); about 40 puroks	15	18	7 short; puroks about 22 short
Tangke	8 sitios (2004)	11	2	Reached
Tapul	6 sitios (2004)	6	7	Reached

Where to ask first

Lawaan I, Tabunoc, Bulacao, Cansojong have the largest gaps against the city counts, so they are the best first requests. Tabunok matters most for puroks: SunStar reports about 40, and this list has far fewer. A written list from each Barangay Hall is the only way to close the gap.

Part 4. Duplicates

Names were compared by how they sound, so swaps like C and K or O and U count as matches. Every name was checked inside its own barangay and across all 22.

True duplicates, merged into one entry

Was listed as	In	Now part of	Why
Nagoyon	Manipis	Sitio Langoyon, Manipis	SunStar 2014 wrote "Proper Nagoyon". No other source uses it, and the sound and place both match Langoyon.
Sitio Languyon	Camp IV	Sitio Langoyon, Manipis	Camp IV's own list of 9 sitios does not include it, and the 2004 city page puts the same forest in Manipis.
Sitio Kabutoy	Mohon	Sitio Cabutoy, Pooc	One outage notice said Mohon. The 2010 profile places Sitio Cabutoy in Pooc.

Was listed as	In	Now part of	Why
Kasambagan	Lagtang	Sitio Sambagan, Lagtang	Map points are about 290 m apart, and Kasambagan simply means "place of sambag".
Sitio Nangka	Camp IV	Purok Nangka, Sitio Proper	News reports called it a sitio; the barangay's own list calls it a purok.

Probably one place on a boundary, kept under both barangays

These stay in both lists until the Barangay Halls say which side each belongs to.

Name	Barangays	Evidence
Sitio Kimba	Cansojong, San Roque	Your sheet has it in both. Pins are 0.7 km apart.
Sitio Molila	Linao, Mohon	BIR puts the Linao-Mohon boundary at Sitio Molila.
Sitio Camp 5	Camp IV, Manipis	BIR names the boundary between Camp 5 and Manipis.
Sitio Pajo	Lawaan I, Linao	City website says Lawaan I; your sheet and a Google chapel pin say Linao.
Sitio Candaya	Linao, Mohon	An association spans both ("Linao Mohon Pooc Candaya"). Pins are 0.8 km apart.
Sitio Litmon	Dumlog, Poblacion	BIR and addresses say Dumlog; your sheet says Poblacion. Pins are 0.6 km apart.
Ranger	Biasong, Mohon, Pooc	BIR places Sitio Ranger at the corner toward Biasong. Three barangays meet nearby.
Sitio Ibo	Jaclupan, Maghaway	Google address says Jaclupan; Wikimapia and the pin say Maghaway.
Sitio Paraiso, Purok Melchora	Lagtang, Tabunok	Same road (Molave); notices name them under both.
Sitio Kalubihan	Bulacao, Tabunok	Google pin is in Tabunok; notices also name it in Bulacao.
San Rafael	San Roque, Tangke	Notices cover both. Wikimapia outlines it in Tangke.

Spelling variants, already treated as one name

Atisan = Antisan; Kimba = Quimba; Rattan = Ratan; Ibacan = Ebacan; Balut = Balot; Napo = Napu; Caneba = Caniba; Kamunggay = Kamungay; Kaimito = Caimito = Kaymito; Crosan = Cruzan = Crozan; Kabanayan = Cabanayan = Cabunayan; Caduldulan = Canduldulan = Kaduldolan; Cadicay = Candicay = Cadikay; Suliman = Soliman; Ughay = Ughai; Tres Aliños = Tres Alinos; Kamansilis = Kamansi; Sineguelas = Seniguelas.

Same name, different places

47 names appear in two or more barangays because local names reuse the same trees, fruits and flowers. These are separate places, not duplicates. Most common: Purok Riverside (6), Purok Tambis (6), Purok Avocado (5), Purok Mangga (5), Purok Nangka (5), Purok Saging (5), Purok Guyabano (4), Purok Gumamela (4), Purok Ilang-Ilang (4), Purok Caimito (4).

Part 5. Subdivisions by barangay (estimated)

237 subdivisions and villages. The BIR schedule says which barangay each is in. Wikimapia and OpenStreetMap outlines give the size, and Google Maps pins locate it. "Near" is the closest mapped sitio or purok in the same barangay, within 450 m. It is an estimate, not a boundary. A subdivision can sit in two barangays; "Also in" shows the other side. Camp IV and Manipis have none in these sources, and Jaclupan and Tapul have one each.

Part 6. Names that could not be tied to one barangay

Each name below appears in the sources, but no source ties it to one barangay. A name seen in several notices was narrowed down by keeping only the barangays common to all of them; these are what remained. The Barangay Halls can settle them quickly.

Could be	Names	Why it is unclear
Biasong or Mohon	Purok Maanyag, Purok Riverside, Purok Sunflower	Visayan Electric notices covering both barangays along Burgos St.
San Isidro or Tabunok	Purok Del Pilar, Purok Gemelina, Purok Gen. Antonio Luna, Purok Masagana, Purok Produktibo; Sitio Cabugnaan, Sitio Eskwelahan, Sitio Matibanganon, Sitio Tabulasan	Notices covering both. The hero and virtue names match the Tabunok series, so Tabunok is more likely.
Bulacao or Tabunok	Sitio Camarin	Notices (3) covering both
Cansojong or San Roque	Purok Buntog, Purok Canda, Purok Goryon, Purok Mayna, Purok Pepino	Notices covering both. Bird names match the Kimba, San Roque series, and Google pins Purok Love Birds in San Roque.
San Roque or Tangke	Purok Barungoy, Purok Blue Marlin, Purok Caraballas, Purok Ito, Purok Kiros, Purok Swasid; Sitio Pahumay	Notices covering both. Fish names match San Roque's coastal puroks.
San Isidro, San Roque or Tangke	Purok Mangosteen, Purok Sigisihon	Notices (2) covering all three
Cansojong, San Isidro, San Roque or Tabunok	Purok Malaumon, Purok Maloloy-on	Notices covering all four. Same virtue series as Tabunok's Purok Maalagaron.
Dumlog or Poblacion	Purok Tangkong	Notices covering both

Row numbers match your Google Sheet. Each row below was filed as described; none was changed in the sheet.

Rows	Written as	What was done
38	**Candulawan, Bulacao**	Names two barangays. It is a vehicle fire, so it may be the road between them. Left out of the purok tables and counted under Bulacao.
76	**Purk Ilang-Ilang, San Roque, Linao**	San Roque is a barangay, but the address ends in Linao. Filed as Sitio San Roque, Linao, because notices also name a Sitio San Roque there.
17, 75, 179 and 206	**Kimba**	Three rows say Cansojong, one says San Roque. Kimba straddles the two, so both keep it.

Rows	Written as	What was done
51 and 189, 199	**Sitio Paglaom / Paglaum**	Dumlog and Bulacao. Kept as two different places: Wikimapia maps a Paglaum basketball court in Bulacao, and an address exists in Dumlog.

34 and 207	**Gumamela**	Sitio Gumamela in Lawaan II and Purok Gumamela in San Roque. Kept as two places.
141	**Sitio Pajo, Linao**	The city website and 9 notices put Sitio Pajo in Lawaan I. It may straddle the line. Listed in both.
70	**Sitio Napo, Talisay City Cebu**	No barangay given. Filed under Tapul, using rows 69 and 218.
137	**Sitio Iba, Purok Rambutan**	No barangay given. Filed under Lawaan II, using row 106 and a Lawaan II notice naming Purok Rambutan.
187	**Deca Homes Subdivision, Phase 3**	No barangay given. Filed under Dumlog, using rows 108 and 212.
88	**Purok Tambis, Pooc**	The city profile calls it Sitio Tambis. Listed as Sitio Tambis.
87	**SRP Mananga Bridge, San Isidro**	The city column says Toledo_City, but the address is in Talisay.
123, 126	**Camilla Homes**	Spelled Camella Homes elsewhere. Azienda Firenze is in Maghaway; Azienda Genova is in Linao.
46	**Cambawog Upper, Purok Pinya**	The barangay website lists it as Sitio Cambawog, Purok Pinya.
19	**Abalo S., Cansojong**	Unclear. Possibly Abalo St. Left out of the purok tables.
188	**JVC, Candulawan**	Unclear. No place by this name was found. Left out of the purok tables.
